Dear Customer:

Thru testing it has been found that some of the upholstery materials used in our aircraft do not meet the FAA flame-resistant requirement, therefore it will be required to install a NO SMOKING placard in all of our aircraft. This placard is to be installed at the top of the instrument panel, just to the right of the radio group.

Please find enclosed your placard and a postcard to be sent to us to prove this service letter has been complied with.

Very truly yours,
